

## QuickDrain Compact

For the fast, safe removal of fuel and waste fluids from End of Life vehicles

### Maximise Productivity

- Compressed air operated
- Drains fuel and waste fluids quickly
- Minimal installation required
- Removes petrol, diesel, waste oil and coolant

### Space Saving

- Neat and compact unit
- Designed to fit alongside your current lifting system
- Perfect for smaller workshops

### Salvage re-usable fuel

- The centrifugal action of our unique water separators removes contamination from fuel including both water and particles, giving you clean re-usable fuel.

- Pumps all fuel and fluids directly into storage, saving valuable time.
- Simple pipe work connections to storage tanks means self installation is easy, or we can install the unit for you with minimum disruption to your work routine.

The QuickDrain Compact is an intermediate system for high speed, safe removal of fuel and waste fluids from your End of Life vehicles, forming part of your depollution operation. Systems can be sold as standard or tailored to your specific needs.

We can also manufacture and install to your exact requirements.

# QuickDrain Compact

For the fast, safe removal of fuel and waste fluids from End of Life vehicles

Your QuickDrain Compact unit comes complete with the Fuel Tank Drilling system and the Waste Oil Gravity Drainer

The QuickDrain compact unit is suitable for all sites to enhance or upgrade your current depollution process.

Alternatives may be selected in place of these two elements according to your needs. Contact us to discuss the options that best suit your business.

AutoDrain are the market leaders in supplying equipment to the End of Life Vehicle industry. Our years of experience in running our own ATF means that we understand your business needs and what is important to you.

All our products are designed and built to the highest of standards, as well as being fully compliant with all HSE and Environment Agency legislation.

## Fact

Our clients regularly tell us that one of their favourite benefits of the QuickDrain Compact is that the unique water separators effectively clean the fuel during the removal process.

This adds no time to fuel removal, and yet leaves you with re-usable fuel at the end of the process.
